Report for Term ending *Christmas*

1946

Pupil's Name *Christopher Brennan.*

SUBJECTS	Percentage Marks obtained	Place in Subject	REMARKS
English			Without being forced Christopher seems to have assimilated a great deal of knowledge this term. His reading and number work are very good. For some reason or other he is very shy to repeat nursery rhymes or answer questions although he is quite lively in other activities. It can be seen that he takes an intelligent interest in stories. Christopher shows strong character and independence.
