English			Christopher's work in the "3 Rs" has been rather spasmodic this term. His number work is very good. Writing is improving as he gains more muscular control. Concentration could have been greater in reading. He is overcoming shyness by degrees. I feel his absence at the beginning of term was a handicap, making it difficult for him to readjust himself to school life. R.B.J.

English			Christopher has made steady progress throughout the term. He has advanced in reading. Writing has greatly improved. In number work he is most anxious to work without counters. Still rather shy when saying poetry. A most useful member of class. Should do well. B.G.
